

Complete solution for electrical facility

Vattenfall Elanläggningar AB has developed Complete Solution for Electrical Facility, an energy solution that entails Vattenfall taking financial and functional responsibility for your electrical facility.

Vattenfall is responsible for the facility complying with all requirements in applicable legislation and regulations and also takes ultimate responsibility for the safety of the facility.

Our offer

Vattenfall Elanläggningar AB takes ownership responsibility for the electrical facility. We implement required investments and measures in the facility. Vattenfall's responsibility also covers operation and maintenance, measures, preparedness and repairs. It is a long-term collaboration with the contract normally running for 5-10 years. At the end of the contract period you can sign a new agreement with Vattenfall or buy back the facility at agreed terms.

The benefit of Complete Solution for Electrical Facility

This solution gives you access to Vattenfall's organisation, technical knowledge and long experience. Operational interruptions are prevented by efficiently checking the facility's condition and effective maintenance methods. We provide maintenance and investment services, as well as technical expertise. We also take full responsibility for work environment and occupational safety.
